High School Adaptive Emerging Leaders Curriculum

**Course Description:** The Adaptive Emerging Leaders program combines experiential and project-based learning to empower students to make a difference on their campus, community, and world. Through small and large group discussions, team building activities and community engagement, students will actively pursue topics such as volunteering, jobs, recreation, leisure, and traditions. Additionally, students will further their independence with an increased focus on social strategies, self-advocacy, employability, communication, and daily living skills.

Engaging Scenario

- Personal Binder: My Goals
  - During routine activities of the day, students have many opportunities to practice skills that are transitional in nature. Teachers may evaluate these core areas of transition in the Unique GPS, Core Rubrics. These same goals can transfer into a “self-evaluation” completed by the student.
    - This activity includes five self-evaluation forms called “My Goals”: Communication, Employability, Daily Living, Social Strategies and Self-Advocacy. Students will then copy or affix five focus goals to the “My Goals” chart.
    - As part of the self-evaluation process, students will select goals they feel need to be worked on. Students will then copy or affix five focus goals to the “My Goals” chart. These goals may be addressed for a week, a month or longer, depending on how this is set up in your classroom. (Do keep in mind that repetition is imperative for skills to become habit for many of our students.)
    - At the end of each day, a teacher or staff member will review the goals with each student and assist in the evaluation of progress. This goal chart has a 3 (Great Job!), 2 (Needed Reminders), 1 (Keep Working on It!) point system. The points earned may be integrated into a classroom reward system.
    - Keep the goal chart in the students’ personal binders for daily and weekly monitoring. Goals may be changed as needed. Students may refer back to the five self-evaluation forms to select new goals.
    - Students with the most significant needs can also select goals from this form. For example, the communication goal, “I can ask for things I want”, may be facilitated by the use of picture cards or a voice output device.
    - Additional goals may be added which are specific to the students’ IEP goals.

Rubric for Engaging Scenario for entirety of course:

- Minimal Prompts: (3 points) Student responds to natural cues during the activity with only periodic direct verbal, physical or gestural prompts to demonstrate the skill.
- Moderate Prompts: (2 points) Student responds to some natural cues with verbal, physical or gestural prompts required approximately 50 – 75% of the time for demonstration of the skill.
● Full Prompting: (1 point) Student demonstrates only minimal skill performance without direct verbal, physical or gestural prompts for interaction.
● No Response: (0 points) Student does not show any response or refuses to respond, even with natural cues and/or physical, verbal or gestural cues.

**Secondary Rubric for Unit:**
Level 3 - Students will self-monitor selected goals for improvement.
Level 2 - Students will select a 3, 2, or 1 to indicate daily progress on goals.
Level 3 - Students will make a selection of “Great Job” or “Keep Working”

Title: A.M. Jobs List

Suggested Length of Time: *throughout course

Standards Addressed

Priority:

○ DESE: Show-Me.5.1 Student demonstrates the ability to set, work on and evaluate progress towards goals.

Detailed Description/Instructions:

- Daily jobs are tasks that students can do within your classroom or school situation. These jobs are assigned to students and can be rotated weekly or as it fits your classroom needs.
- Daily jobs provide repetitive opportunities for students to learn practical skills, follow a sequence of steps to complete a task and learn when and how it is appropriate to ask for help in various situations.
  - A large pocket chart is easy to use. All jobs are located in one place and are easily viewable and accessible to all. Generic job cards are presented for this activity. Additional cards may be added as needed.
  - Have students turn over their job cards in the pocket chart when their job is finished. This is a quick way to see when all jobs are complete.
  - Classroom staff should allow the students to be as independent as possible. Do be available if a student approaches and asks for help or if a student needs to be redirected in completing a task correctly.
  - For students with more significant disabilities (level 1), the goal must be to find active ways that the student can participate in jobs. This may include making choices between activities, using physical assistance for participation and using a voice output device to give directions for a specific task or choosing a classmate to be a partner in completing a given job. Look for any means to accommodate physical participation and increase communication during tasks.

Bloom’s Levels: Apply

Webb’s DOK: 2

Rubric: See full lesson plan in topics folder with built-in checklist in addition to core rubrics folder rubrics covering employability, communication, self-advocacy, daily living and social strategies. These are designed to record observational information on the current abilities of students with cognitive and multiple disabilities within the daily instructional tasks.

Engaging Scenario

Engaging Scenario
● Going on a Volunteering Trip will be designed as a community based instruction or “volunteering” to excite and prepare students for employment or postsecondary experiences. The volunteering trip allows students to apply skills learned throughout the course via AM/PM Jobs and/or other activities.

Rubric for Engaging Scenario for entirety of course:
● Minimal Prompts: (3 points) Student responds to natural cues during the activity with only periodic direct verbal, physical or gestural prompts to demonstrate the skill.
● Moderate Prompts: (2 points) Student responds to some natural cues with verbal, physical or gestural prompts required approximately 50 – 75% of the time for demonstration of the skill.
● Full Prompting: (1 point) Student demonstrates only minimal skill performance without direct verbal, physical or gestural prompts for interaction.
● No Response: (0 points) Student does not show any response or refuses to respond, even with natural cues and/or physical, verbal or gestural cues.

Secondary Rubric for Unit:
Level 3 - Students will independently read the job chart and complete daily and weekly job tasks.
Level 2 - Students will locate assigned job on the chart and complete assigned job task with decreasing support.
Level 3 - Students will participate in classroom jobs with physical assistance or use of assistive technology.

Unit of Study Terminology

**Appendices:** All Appendices and supporting material can be found in this course’s shell course in the District’s Learning Management System.

**Assessment Leveling Guide:** A tool to use when writing assessments in order to maintain the appropriate level of rigor that matches the standard.

**Big Ideas/Enduring Understandings:** Foundational understandings teachers want students to be able to discover and state in their own words by the end of the unit of study. These are answers to the essential questions.

**Engaging Experience:** Each topic is broken into a list of engaging experiences for students. These experiences are aligned to priority and supporting standards, thus stating what students should be able to do. An example of an engaging experience is provided in the description, but a teacher has the autonomy to substitute one of their own that aligns to the level of rigor stated in the standards.

**Engaging Scenario:** This is a culminating activity in which students are given a role, situation, challenge, audience, and a product or performance is specified. Each unit contains an example of an engaging scenario, but a teacher has the ability to substitute with the same intent in mind.

**Essential Questions:** Engaging, open-ended questions that teachers can use to engage students in the learning.

**Priority Standards:** What every student should know and be able to do. These were chosen because of their necessity for success in the next course, the state assessment, and life.

**Supporting Standards:** Additional standards that support the learning within the unit.

**Topic:** These are the main teaching points for the unit. Units can have anywhere from one topic to many, depending on the depth of the unit.

**Unit of Study:** Series of learning experiences/related assessments based on designated priority standards and related supporting standards.

**Unit Vocabulary:** Words students will encounter within the unit that are essential to understanding. Academic Cross-Curricular words (also called Tier 2 words) are those that can be found in multiple content areas, not just this one. Content/Domain Specific vocabulary words are those found specifically within the content.

**Symbols:**
- This symbol depicts an experience that can be used to assess a student’s 21st Century Skills using the rubric provided by the district.
- This symbol depicts an experience that integrates professional skills, the development of professional communication, and/or the use of professional mentorships in authentic classroom learning activities.
