Unit 1: Close Reading with Literature

Subject: Reading
Grade: 6
Name of Unit: Close Reading with Literature
Length of Unit: 1 quarter

Overview of Unit: In this unit, students will learn how textual evidence can be used to support comprehension of material. They will also use close reading skills to analyze what a text says and implies, as well as use context clues to determine figurative and connotative meaning of words and phrases. Finally, they will understand how authors develop meaning and tone in a literary text through word choice.

Priority Standards for unit:
- 6.RL.1.A. Draw conclusions, infer, and analyze by citing textual evidence to support analysis of what the text says explicitly as well as inferences drawn from the text.
- 6.RL.1.B. Determine the meaning of words and phrases as they are used in the text, including figurative and connotative meanings using context, affixes, or reference materials.
- 6.RL.2.C. Analyze how word choice, including the use of figurative language and/or the repetition of words or word sounds, contributes to meaning

Supporting Standards for unit:
- 6.RL.1.C Interpret visual elements of a text and draw conclusions from them (when applicable).
- 6.SL.1.A Follow rules for collegial discussions and decision-making, track progress toward specific goals and deadlines, and define individual roles as needed.
- 6.RL.3.D. Read and comprehend literature, including stories, dramas, and poems, independently and proficiently.

Engaging Scenario (An Engaging Scenario is a culminating activity that includes the following components: situation, challenge, specific roles, audience, product or performance.)

As a life-long reader, you will read and share the books you have read and your thoughts about them with other readers. Throughout the unit, you will establish a virtual bookshelf through an online platform of your teacher’s choice, such as Biblionasium or GoodReads, where you will log the books you read and your opinions or recommendations about those books. At the end of the unit, you will select one of the books from your shelf to share in a book talk with your teammates. You may present your book talk in a virtual media/format of your choice. Note to teachers: Unlike other engaging scenarios, this scenario will span the entire unit, with the culminating activity of the book talk at the end.

Engaging Scenario

The Truman Library is looking for a new WWII exhibit featuring the United States’ victory in the Pacific. Students need to determine the point of view which the exhibit will take. Your role is to read two conflicting articles on the bombing of Nagasaki and Hiroshima to determine which author’s point of view is more valid than the other. You will need to determine how each author introduces, illustrates, and elaborates on the topic using only textual evidence to support your claim.

Your final project will consist of a multi-media presentation of your choice to convey your argument for the author’s point of view with which you agree. Additionally, you will support your point of view by demonstrating your position to a representative of the Truman Library.

Unit of Study Terminology

**Unit of Study:** Series of learning experiences/related assessments based on designated priority standards and related supporting standards.

**Priority Standards:** What every student should know and be able to do. These were chosen because of their necessity for success in the next course, the state assessment, and life.

**Supporting Standards:** Additional standards that support the learning within the unit.

**Essential Questions:** Engaging, open-ended questions that teachers can use to engage students in the learning.

**Big Ideas/Enduring Understandings:** Foundational understandings teachers want students to be able to discover and state in their own words by the end of the unit of study. These are answers to the essential questions.

**Unit Vocabulary:** Words students will encounter within the unit that are essential to understanding. Academic Cross-Curricular words (also called Tier 2 words) are those that can be found in multiple content areas, not just this one. Content/Domain Specific vocabulary words are those found specifically within the content.

**Engaging Scenario:** This is a culminating activity in which students are given a role, situation, challenge, audience, and a product or performance is specified. Each unit contains an example of an engaging scenario, but a teacher has the ability to substitute with the same intent in mind.

**Topic:** These are the main teaching points for the unit. Units can have anywhere from one topic to many, depending on the depth of the unit.

**Engaging Experience:** Each topic is broken into a list of engaging experiences for students. These experiences are aligned to priority and supporting standards, thus stating what students should be able to do. An example of an engaging experience is provided in the description, but a teacher has the autonomy to substitute one of their own that aligns to the level of rigor stated in the standards.
