High School Topics English Language Arts 1 Curriculum

**Course Description:** English Language Arts 1 both develops and deepens student skills in English Language Arts, and serves as a foundation course for ELA 2. As the beginning course in the English Language Arts curriculum for college and career readiness, this course promotes rigorous study in the areas of reading, writing, speaking, listening, and critical thinking. Skills and concepts taught in this course will help students use language purposefully as they comprehend, construct, and convey meaning in all other English Language Arts courses.

Unit 1: Themes

Subject: ELA 1
Grade: 9
Name of Unit: Theme
Length of Unit: 3 Weeks (4 Weeks)

Overview of Unit: Literary terms, Figurative language. The speaking and listening standards are highlighted in this unit and supported throughout the remainder of the course/term.

Priority Standards for unit:

- Using appropriate text, determine two or more themes in a text, analyze their development throughout the text, and relate the themes to life experiences; provide an objective and concise summary of the text. (DESE.R1.D.9-10)
- Analyze how complex characters develop over the course of a text to advance the plot and develop the theme. (DESE.R2.D.9-10).
- Draw conclusions, infer and analyze by citing relevant and thorough textual evidence to support analysis of what the text says explicitly as well as inferences drawn from the text. (DESE.R1.A.9-10)
- Follow a writing process to produce clear and coherent writing in which the development, organization, style, and voice are appropriate to the task, purpose and audience; self-select and blend (when appropriate) previously learned narrative, expository, and argumentative writing techniques. (DESE.W2.A.9-10)

Supporting Standards for unit:

- Determine the meaning of words and phrases as they are used in the text, including figurative, connotative, and content-specific meanings using context, affixes, or reference materials. (DESE.R1.B.9-10)
- Delineate a speaker’s argument and claims, evaluating the speaker’s point of view, reasoning, and evidence in order to propel conversations by posing and responding to questions that relate the current discussion to broader themes or larger ideas; actively incorporate others into the discussion; and clarify, verify, or challenge ideas and conclusions. (DESE.SL1.B.9-10)
- Work with peers to set rules for collegial discussions and decision-making, clear goals, and deadlines, and individual roles as needed. (DESE.SL.1A.9-10).
- Speak audibly, and to the point, using conventions of language as appropriate to task, purpose and audience when presenting including appropriate volume, clear articulation and accurate pronunciation at an understandable pace, avoiding verbal filler that might be distracting to listeners.(DESE.SL.2A.9-10)
• Make consistent eye contact with a range of listeners when speaking using effective gestures to communicate a clear viewpoint and engage listeners and avoid body language or mannerisms that might be distracting to the audience. (DESE.SL.2B.9-10)

• TT.AB.I.3: Students will recognize that peoples’ multiple identities interact and create unique and complex individuals.

• TT.AB.I.4: Students will express pride, confidence and healthy self-esteem without denying the value and dignity of other people.

**Essential Questions:**
1. What makes a good theme?
2. How do I determine the theme of a text?
3. Why do I determine themes in literature?

**Enduring Understanding/Big Ideas:**
1. Themes are not one word or clichés. Themes are complete thoughts or sentences that can be applied to the entire work. Themes have to apply to the piece of literature and the human experience.
2. To determine the theme of the text, identify big ideas then explore the author’s attitude about those ideas.

3. Themes are important because they allow us to relate the piece of literature to our world and expand our understanding of the text.

Topic 1: Introduction to Theme

Engaging Experience 1

Title: What makes a good theme/Differentiating between subject and theme?
Suggested Length of Time: 2-4 Days

Standards Addressed

Priority:
- Draw conclusions, infer and analyze by citing relevant and thorough textual evidence to support analysis of what the text says explicitly as well as inferences drawn from the text. (DESE.R1.A.9-10)

Supporting:
- Work with peers to set rules for collegial discussions and decision-making, clear goals, and deadlines, and individual roles as needed. (DESE.SL.1A.9-10)
- Speak audibly, and to the point, using conventions of language as appropriate to task, purpose and audience when presenting including appropriate volume, clear articulation and accurate pronunciation at an understandable pace, avoiding verbal filler that might be distracting to listeners.(DESE.SL.2A.9-10)
- Make consistent eye contact with a range of listeners when speaking using effective gestures to communicate a clear viewpoint and engage listeners and avoid body language or mannerisms that might be distracting to the audience. (DESE.SL.2B.9-10)

Detailed Description/Instructions: The teacher will provide the class an anchor text (short story, segment of a novel). Before students read, the teacher will give them the purpose to read answering the following question: what is the subject in the text? After students finish reading, the teacher will facilitate a discussion outlining all the subjects within the text. The teacher will then ask students how the author addresses the subject and how does the author feel about the subject? These responses can be the same but not necessarily. An extension to this activity could be tying in mood and tone of the text (the following experience defines these concepts further).

The teacher will have students summarize how students defined the subject and author’s feelings. Then the discussion will lead into defining the subject with one word as a topic. Then the teacher will facilitate the theme of the text. The theme should address the whole piece of literature, not be clichéd as well as a complete sentence. Finally, students will compare and contrast the differences between the newly defined theme and subject.

The teacher can repeat this activity with different pieces of texts as many times as needed for the class to fully comprehend the concept. This activity may need to be revisited throughout the course/term.

Engaging Experience 2
Title: Literary Vocabulary
Suggested Length of Time: 1-2 Days
Standards Addressed

Priority:
- Using appropriate text, determine two or more themes in a text, analyze their development throughout the text, and relate the themes to life experiences; provide an objective and concise summary of the text. (DESE.R1.D.9-10)

Supporting:
- Determine the meaning of words and phrases as they are used in the text, including figurative, connotative, and content-specific meanings using context, affixes, or reference materials. (DESE.R1.B.9-10)
- Delineate a speaker’s argument and claims, evaluating the speaker’s point of view, reasoning, and evidence in order to propel conversations by posing and responding to questions that relate the current discussion to broader themes or larger ideas; actively incorporate others into the discussion; and clarify, verify, or challenge ideas and conclusions. (DESE.SL1.B.9-10)

Detailed Description/Instructions: After students identify a theme based on the subject of an anchor text, the teacher will ask students to explain the process used to determine the theme. The teacher will then instruct students on how to use different techniques to determine theme. The teacher will define vocabulary words for students such as mood, tone, connotation, etc., then explain how each of these can be used to determine theme. For example, the connotation for a word contributes to the author’s tone of the piece, which directly lends itself to the theme.

- TT.AB.I.3: Students will recognize that peoples’ multiple identities interact and create unique and complex individuals.

**Detailed Description/Instructions:** The teacher will instruct the students on how to determine the author’s use of Direct Characterization and Indirect Characterization. The teacher may use the STEAL acronym to teach Indirect Characterization (Speech, Thoughts, Effect on others, Actions, Looks). The teacher will explain to students how the author’s use of characterization directly relates to the theme of the text.

Essential Questions:
1. Why do authors use literary concepts in fiction and literature?
2. How do the structure and syntax of a piece of literature affect our understanding of the piece?
3. How do I increase my understanding of a piece of fictional text?

Enduring Understanding/Big Ideas:
1. Authors include literary concepts in their writing as a means to enhance drama and suspense, express creativity, and enhance voice.
2. Structure and syntax allow us to determine the author’s tone and guide the pace of reading.
3. To increase understanding of a piece of text, read a variety of different texts then connect the text to other texts, myself, and the world.

Title: Identifying Figurative Language

Suggested Length of Time: 1 Day

Standards Addressed

Priority:

- Analyze how points of view is reflected in the characters, setting, and plot. (DESE.RL.2B.9-10)
- Analyze the cumulative impact of specific word choices and syntax on meaning and tone. (DESE.RL.2C.9-10)
- Read and comprehend literature, including stories, dramas and poems, independently and proficiently. (DESE.RL.2A.9-10)

Supporting:

- Determine the meaning of words and phrases as they are used in the text, including figurative and connotative meanings using context, affixes, or reference materials. (DESE.RL.1B.9-10).
- Delineate a speaker’s argument and claims, evaluating the speaker’s point of view, reasoning, and evidence in order to propel conversations by posing and responding to questions that relate the current discussion to broader themes or larger ideas; actively incorporate others into the discussion; and clarify, verify, or challenge ideas and conclusions. (DESE.SL1.B.9-10)
- Work with peers to set rules for collegial discussions and decision-making, clear goals, and deadlines, and individual roles as needed. (DESE.SL1A.9-10).
- Speak audibly, and to the point, using conventions of language as appropriate to task, purpose and audience when presenting including appropriate volume, clear articulation and accurate pronunciation at an understandable pace, avoiding verbal filler that might be distracting to listeners. (DESE.SL.2A.9-10)
- Make consistent eye contact with a range of listeners when speaking using effective gestures to communicate a clear viewpoint and engage listeners and avoid body language or mannerisms that might be distracting to the audience. (DESE.SL.2B.9-10)

Detailed Description/Instructions: Students will read a piece of literature that has multiple examples of a figurative language. Poetry may be best for this activity but teachers can use any text they deem appropriate. Teachers should inform students that they are reading with the purpose of identifying examples of figurative language in the piece. (NOTE: It may be necessary for teachers to quickly review figurative language with their students. If teacher determines that a longer review is needed, this is also appropriate). Students will read the piece and annotate examples of figurative language. This can be done independently or with small groups. At the
end of the reading, teachers will ask students to share out examples of figurative language found within the piece of literature.

**Detailed Description/Instructions:**
- **Day 1:** Teachers can have students examine the same piece of literature as used in engaging experience 1 or use a new piece that is heavy in figurative language. Teachers can review with students by having them revisit the identified figurative language in a piece or have students identify new examples in a different piece.

  Next, the teacher will have the students examine the purpose behind figurative language as a means to affect the tone of a piece of literature. Teachers may wish to have students brainstorm possible tone words for the selected piece and then as a class, decide on the best example. Then, teachers will ask students to identify three different examples of figurative language from the literary piece and have students answer this question: How does this example of figurative language impact the tone of the piece? Teachers may need to model this question and answer activity for students before they can complete it independently.
- **Day 2:** Teachers will conduct an assessment of the skills explored in day 1. Teachers can have students examine an assigned piece of literature, or students can identify a passage from their independent reading. Students will then write a response to this question: What is the tone of the piece and how does the author use figurative language to illuminate this tone? This should be done independently to assess individual students.

**Detailed Description/Instructions:**

- **Day 1:** Teachers will introduce the concept of syntax to students by exploring the idea of short sentences in a literary piece vs long sentences in a literary piece. (NOTE: This concept could work better with a piece of fiction, either short story or novel, as opposed to poetry or drama). Teachers should explain that often times in literature, short, simple sentences allow the reader to move at a quicker pace through the literature, whereas passages with long and more complex sentences tend to force the reader to slow down while reading.

  Teachers will use a mentor text and explore distinct passages which employ short sentences. Teachers will lead this discussion by reading the passage out loud with students. Then, the class will brainstorm a list of topics/subjects that were addressed in the passage, as well as the tone/mood of the passage, and what the characters were experiencing during this section. The teacher will then ask the class this question: Why do you think the author used short sentences to address this section of the story? Why would the author want us to move quickly through this part of the story?

  Teachers will repeat this process with a passage employing longer sentences and conduct the same conversation asking students the same question.

- **Day 2:** Teachers will assess the students understanding of the author’s use of syntax in a piece of literature by writing a brief analysis of an assigned piece of literature or by using passages from the student’s independent reading. Students will then explore the differences between the two passages by creating a t-chart. Students will then answer the question independently: How did the author’s use of syntax (short sentences over long and long sentences over short) impact my understanding of the text?

- TT.AB.D.10: Students will examine diversity in social, cultural, political and historical contexts rather than in ways that are superficial or oversimplified.

**Detailed Description/Instructions:** Teachers will ask the question: How does the setting of the literary piece impact its meaning? Teachers will then explain that setting is not simply WHERE
the story takes place but also WHEN it takes place. Teachers should explore a piece where the
time period of a piece is vital to understanding the meaning of the text. Settings to consider
would be historical period, season, time of day, geographical location, exterior vs interior, urban
vs rural. Students should also consider if the setting has symbolic details or if the setting is just a
realistic backdrop with little symbolic meaning. Students should also explore what mood the
setting creates by exploring physical details.

Once these concepts are explored, students will create a small multimedia presentation in
which they organize textual information about the setting to illustrate the author’s purpose for
creating this particular setting. Students should always consider this question: how would the text
be different if the story took place in a different setting?

Detailed Description/Instructions:

● **Day 1**: Teachers will begin a discussion on character analysis by exploring concepts such as flat vs. round characters, static vs dynamic, and how to determine if a character is one of these concepts. Teachers can show a short video clip, read a short story, or have students explore a character from their independent reading. Teachers lead a discussion on what causes people to change. Teachers will then ask students what types of events have caused them to change. Teachers can engage students in a discussion or this can be done through journal writing. Class will brainstorm trends, such as losing a loved one, entering a new relationship, family conflicts, moving, rites of passage, etc. Teachers will then ask students to explain how these things lead them to change. How did you grow from this experience? Students will then apply these events and experiences to literature. Where did the characters in the story experience some of the same things? What was the impact on the character?

● **Day 2**: The class explores the concept of internal conflict. Teachers ask students to discuss a moment in their lives when they felt conflicted or faced a moral dilemma. Teachers can ask students to list the traits of their character that were explored on both sides of the dilemma and how these traits conflicted with one another. This will then be applied to a character from literature either assigned by the teacher or from the student’s independent reading.

Overview of Unit: Students will identify and define different types of informational texts. Students will compare and contrast different types of literary techniques and how they are used differently in nonfiction writing.

Priority Standards for unit:
- Analyze how an author's choices concerning how to structure a text, order events, or manipulate time impact the reader. (DESE.RL2.A.9-10)
- Read and comprehend informational text independently and proficiently. (DESE.RI.3D.9-10)
- Follow a writing process to produce clear and coherent writing in which the development, organization, style, and voice are appropriate to the task, purpose and audience; self-select and blend (when appropriate) previously learned narrative, expository, and argumentative writing techniques. (DESE.W2.A.9-10).
- Evaluate an author's argument, assessing whether the reasoning is valid and the evidence is relevant and sufficient; identify false statements and fallacious reasoning. (DESE.RI.2D.9-10).
- Explain two or more central/main ideas in a text, analyze their development throughout the text, and explain the significance of the central ideas; provide an objective and concise summary of the text. (DESE.RI.1D.9-10).

Supporting Standards for unit:
- Explain how and why an author alludes to or transforms source material within his or her text. (DESE.RL.3B.9-10)
- Determine the meaning of words and phrases as they are used in the text, including figurative, connotative, and content-specific meanings using context, affixes, or reference materials. (DESE.RI.1B.9-10)
- Evaluate how effectively two or more texts develop similar ideas/topics. (DESE.RI.3B.9-10)
- Analyze how similar ideas or topics are portrayed in different media formats. (DESE.RI3.A.9-10)
- Conduct research to answer a question (including a self-generated question) or solve a problem; narrow or broaden the inquiry when appropriate; gather multiple relevant, credible sources, print and digital; integrate information using a standard citation system. Gather relevant information from multiple authoritative print and digital sources, using
advanced searches effectively; assess the usefulness of each source in answering the research question; integrate information into the text selectively to maintain the flow of ideas, avoiding plagiarism and following a standard format for citation. (DESE.W.1A.9-10)

- **Review, revise, and edit writing with consideration for the task, purpose, and audience.** (DESE.W.3A.9-10)
  - Organization and Content: Introduce the topic, maintain a clear focus throughout the text, and provide a conclusion that follows from the text. Achieve the writer's purpose and demonstrate an awareness of audience by making choices regarding organization and content.
  - Use a variety of appropriate transitions to clarify relationships and connect ideas, claims and signal time shifts

- **Work with peers to set rules for collegial discussions and decision-making, clear goals, and deadlines, and individual roles as needed.** (DESE.SL.1A.9-10).

- **Speak audibly, and to the point, using conventions of language as appropriate to task, purpose and audience when presenting including appropriate volume, clear articulation and accurate pronunciation at an understandable pace, avoiding verbal filler that might be distracting to listeners.** (DESE.SL.2A.9-10)

- **Make consistent eye contact with a range of listeners when speaking using effective gestures to communicate a clear viewpoint and engage listeners and avoid body language or mannerisms that might be distracting to the audience.** (DESE.SL.2B.9-10)

- **Delineate a speaker’s argument and claims, evaluating the speaker’s point of view, reasoning, and evidence in order to propel conversations by posing and responding to questions that relate the current discussion to broader themes or larger ideas; actively incorporate others into the discussion; and clarify, verify, or challenge ideas and conclusions.** (DESE.SL1.B.9-10)

- **ISTE-DIGITAL CITIZEN.2: Students recognize the rights, responsibilities and opportunities of living, learning and working in an interconnected digital world, and they act and model in ways that are safe, legal and ethical.**

- **TT.AB.D.8: Students will respectfully express curiosity about the history and lived experiences of others and will exchange ideas and beliefs in an open-minded way.**

Ongoing Skill/Activity

Standards Addressed

Priority:

- Read and comprehend informational text independently and proficiently. (DESE.RI.3D.9-10).
- Explain two or more central/main ideas in a text, analyze their development throughout the text, and explain the significance of the central ideas; provide an objective and concise summary of the text. (DESE.RI.1D.9-10).

Detailed Description/Instructions: Students will choose a current event to follow throughout the unit. They will create 5-10 blog posts on the topic with each entry using a specific mode of informational text (biography/memoir, magazine/newspaper article, social media, large nonfiction piece, news video, podcast, etc.). The blog will be completed by the end of the unit. Teachers can assess the blog post throughout the unit or upon completion of the unit. Teachers could use whatever blogging platform works best.

**TOPIC MODIFICATION:** Students will blog 2 – 3 posts on a current event.
Topic 1: Informational Citizenship

Engaging Experience 1
Title: Credible Sources
Suggested Length of Time: 1-2 Days

Standards Addressed
Priority:

- Evaluate an author's argument, assessing whether the reasoning is valid and the evidence is relevant and sufficient; identify false statements and fallacious reasoning. (DESE.RI.2D.9-10).

Supporting:
- Delineate a speaker’s argument and claims, evaluating the speaker’s point of view, reasoning, and evidence in order to propel conversations by posing and responding to questions that relate the current discussion to broader themes or larger ideas; actively incorporate others into the discussion; and clarify, verify, or challenge ideas and conclusions. (DESE.SL1.B.9-10)

Detailed Description/Instructions: Teachers will lead students on a discussion regarding research and informational sources as a means to find reliable and credible information. Teachers will present two pieces of informational text on the same topic and then ask students to determine which one they identify as more credible. Possible questions to consider are:

- Who is the author of each piece? Are they affiliated with an organization that could lead to information that is one sided or inaccurate?
- Is one type of source always more credible than the other?

This conversation can be done via Socratic Seminar or with a written response.

Engaging Experience 2
Title: Digital Citizenship
Suggested Length of Time: 1-2 Days

Standards Addressed

Priority:

- Follow a writing process to produce clear and coherent writing in which the development, organization, style, and voice are appropriate to the task, purpose and audience; self-select and blend (when appropriate) previously learned narrative, expository, and argumentative writing techniques. (DESE.W2.A.9-10).
Supporting:

- Review, revise, and edit writing with consideration for the task, purpose, and audience. (DESE.W.3A.9-10)
  - Organization and Content: Introduce the topic, maintain a clear focus throughout the text, and provide a conclusion that follows from the text. Achieve the writer's purpose and demonstrate an awareness of audience by making choices regarding organization and content.
  - Use a variety of appropriate transitions to clarify relationships and connect ideas, claims and signal time shifts
- Work with peers to set rules for collegial discussions and decision-making, clear goals, and deadlines, and individual roles as needed. (DESE.SL.1A.9-10).
- ISTE-DIGITAL CITIZEN.2: Students recognize the rights, responsibilities and opportunities of living, learning and working in an interconnected digital world, and they act and model in ways that are safe, legal and ethical.

Detailed Description/Instructions: Teachers introduce the concept of digital citizenship by having students explore the idea that everything they create is a reflection on them. Today, this translates to the online universe. Therefore, it is essential to be responsible digital citizens by not only considering WHAT we post but HOW it appears to the digital world. Teachers and students will then brainstorm a list of ideas and concepts that influence how others might look at information an individual may publish online. List of possibilities include:
  - Spelling, grammar, and punctuation
  - Appropriate language
  - Credible information
  - Visual presentation
  - Knowledge of topic

Teachers will discuss that the blogs they create for their informational topic will be seen by others. Therefore, they should consider how their posts may be perceived by others.

Topic 2: What is Nonfiction?

Engaging Experience 1
Title: Exploring Current Events
Suggested Length of Time: 2-4 Days
Standards Addressed

Priority:
- Analyze how an author's choices concerning how to structure a text, order events, or manipulate time impact the reader. (DESE.RL2.A.9-10)

Supporting:
- Explain how and why an author alludes to or transforms source material within his or her text. (DESE.RL.3.B.9-10)
- Determine the meaning of words and phrases as they are used in the text, including figurative, connotative, and content-specific meanings using context, affixes, or reference materials. (DESE.RL.1.B.9-10)
- Evaluate how effectively two or more texts develop similar ideas/topics. (DESE.RI.3.B.9-10)
- Analyze how similar ideas or topics are portrayed in different media formats. (DESE.RI.3.A.9-10)

Detailed Description/Instructions: [Newsela, CNN Student News] The teacher will put students into groups of 3-4. Students will draw a topic (global news, domestic news, science and technology, sports, entertainment) and a medium in which to explore the topic (blog post, podcast, news video, news article, etc.). As a group students will read/watch/listen then discuss their chosen piece and write a short reflection on what they learned. Groups will rotate their current events throughout the classroom and repeat the process of discussion and writing.

**Detailed Description/Instructions:** Teachers will assign students a printed news story to read and annotate via AVID strategies of marking the text. This includes numbering the paragraphs, circling key words and phrases, and underlining main ideas/central claims. Students will then chart the text. (What the author says and how they say it). Students will be able to identify the author’s purpose and determine the theme using annotation.

**Detailed Description/Instructions:**

- **Day 1:** Students will watch a documentary film that employs research and information to tell a story. While watching students will note the structure of the piece by exploring moments when the director uses flashbacks, introduces new characters to the story etc. By the conclusion of the film, students should have a basic outline of the structure of the piece.
- **Day 2:** The teacher will lead a discussion with students in which they explore the structure in detail. Teacher will ask questions such as:
  - Why did the author employ flashbacks? What was the purpose?
  - How did the piece begin? Why did it begin this way?
  - How did the piece end? Why did it end this way?
  - Are there any structural patterns observed?
○ How did the structure of the piece help the author convey their point?

Teachers will ask the class: What do you think the director of the piece wants us to take away from the film? Write a 1-2 sentence answer to that question. Teachers can then hold a discussion on this claim by asking students to share out their thoughts on the film and what they perceived to be the message of the film. Teachers will then ask students to discuss how the author established those claims. Teachers can assess students on this concept via class discussion, blog, short essay, etc.

- **Day 2:** Now that students have watched a documentary as a piece of informational text, students will then explore these same tactics and strategies in a written informational piece (if possible, on the same topic as the documentary). - Respond thoughtfully to diverse perspectives including those presented in diverse media; summarize points of agreement and disagreement; resolve contradictions when possible; and determine what additional information or research is needed. (DESE.SL.1C.9-10)
- Speak audibly, and to the point, using conventions of language as appropriate to task, purpose and audience when presenting including appropriate volume, clear articulation and accurate pronunciation at an understandable pace, avoiding verbal filler that might be distracting to listeners. (DESE.SL.2A.9-10)
- Make consistent eye contact with a range of listeners when speaking using effective gestures to communicate a clear viewpoint and engage listeners and avoid body language or mannerisms that might be distracting to the audience. (DESE.SL.2B.9-10)
- TT.AB.I.4: Students will express pride, confidence and healthy self-esteem without denying the value and dignity of other people.
- TT.AB.I.5: Students will recognize traits of the dominant culture, their home culture and other cultures and understand how they negotiate their own identity in multiple spaces.
- TT.AB.D.6: Students will express comfort with people who are both similar to and different from them and engage respectfully with all people.

Detailed Description/Instructions: The teacher will begin this unit with asking the question ‘What is Culture?’ The teacher will inform the students about the need to explore different cultures and how they affect our own. Teachers may show “Single Story,” a TED Talk on the importance of not stereotyping. The teacher will lead a discussion on cultural differences to get an idea of what students already know.

Priority:

● Determine the meaning of words and phrases as they are used in the text, including figurative, connotative, and content-specific meanings using context, affixes, or reference materials. (DESE.RI.1B.9-10)

Supporting:

● TT.AB.I.4: Students will express pride, confidence and healthy self-esteem without denying the value and dignity of other people.
● TT.AB.I.5: Students will recognize traits of the dominant culture, their home culture and other cultures and understand how they negotiate their own identity in multiple spaces.
● TT.AB.D.6: Students will express comfort with people who are both similar to and different from them and engage respectfully with all people.
● TT.AB.D.7: Students will develop language and knowledge to accurately and respectfully describe how people (including themselves) are both similar to and different from each other and others in their identity groups.

Detailed Description/Instructions: Teachers will introduce vocabulary that students will need to know throughout the Multicultural Unit: culture, perspective, race, nationality, ethnicity, gender, gender roles, social class, socioeconomic status, poverty, sexual orientation, and specific words that can be applied to or can be found in the chosen texts. A good way to introduce these vocabulary words are to use teaching centers around the classroom focusing on specific vocabulary words. For example, one teaching center can focus on race, nationality, and ethnicity while another center focuses on social class, socioeconomic status, and poverty. Students can read a definition and example at each center then discuss it with their group members.

**Engaging Scenario** (An Engaging Scenario is a culminating activity that includes the following components: situation, challenge, specific roles, audience, product or performance.)

Throughout the unit, students will have read a poem, a short story, a novel, and an informational text all from the same culture. Then students will create a multi-modal final project which addresses what they learned about that culture, how the culture was portrayed in each of the four pieces, and an overall theme statement which encompasses all four pieces.

**Unit of Study Terminology**

**Unit of Study:** Series of learning experiences/related assessments based on designated priority standards and related supporting standards.
**Priority Standards:** What every student should know and be able to do. These were chosen because of their necessity for success in the next course, the state assessment, and life.

**Supporting Standards:** Additional standards that support the learning within the unit.

**Essential Questions:** Engaging, open-ended questions that teachers can use to engage students in the learning.

**Big Ideas/Enduring Understandings:** Foundational understandings teachers want students to be able to discover and state in their own words by the end of the unit of study. These are answers to the essential questions.

**Unit Vocabulary:** Words students will encounter within the unit that are essential to understanding. Academic Cross-Curricular words (also called Tier 2 words) are those that can be found in multiple content areas, not just this one. Content/Domain Specific vocabulary words are those found specifically within the content.

**Engaging Scenario:** This is a culminating activity in which students are given a role, situation, challenge, audience, and a product or performance is specified. Each unit contains an example of an engaging scenario, but a teacher has the ability to substitute with the same intent in mind.

**Topic:** These are the main teaching points for the unit. Units can have anywhere from one topic to many, depending on the depth of the unit.

**Engaging Experience:** Each topic is broken into a list of engaging experiences for students. These experiences are aligned to priority and supporting standards, thus stating what students should be able to do. An example of an engaging experience is provided in the description, but a teacher has the autonomy to substitute one of their own that aligns to the level of rigor stated in the standards.

**Symbols:**

- This symbol depicts an experience that can be used to assess a student’s 21st Century Skills using the rubric provided by the district.

- This symbol depicts an experience that integrates professional skills, the development of professional communication, and/or the use of professional mentorships in authentic classroom learning activities.
