Middle School Spanish Curriculum

Course Description: The Spanish 7/8 class is designed to develop communication skills in Spanish and to make comparisons and connections to Spanish-speaking cultures with the goal of encouraging understanding and acceptance of differences. Life in various Spanish-speaking countries will be examined. Correct pronunciation and writing receives emphasis. Students learn to express and understand receptively ideas on topics such as common conversational phrases, vocabulary using numbers, calendar and weather, descriptions and likes and dislikes. This is a one-semester class which can be taken only once in either 7th or 8th grade.

Essential Questions:
1. How do I pronounce different vowels and consonants in Spanish?
2. How do I have a polite conversation in Spanish?
3. Why do we learn about culture?

Enduring Understanding/Big Ideas:
1. Students will correctly pronounce different consonants and vowels.
2. Students will use subject pronouns (Tú and Usted) and vocabulary to be able to differentiate to have an introductory conversation.
3. This response will evolve throughout the semester. Students will understand they each have a unique background and experiences stemming from their cultural background and awareness. Students will have a broader understanding of how their experiences differ and are similar from other cultures. Students will learn communication differences and similarities. By building cultural awareness, students will more easily be able to work with and communicate with others.

Engaging Scenario

An Engaging Scenario is a culminating activity that includes the following components: situation, challenge, specific roles, audience, product or performance. In groups of 2-3 students will create a Spanish weather forecast incorporating calendar terms, Spanish numbers and weather descriptions. Students will research a culture of a Spanish speaking country and present a weather forecast as if they were from that culture using multimedia presentation tools. Students are encouraged to use props, act out vocabulary, or draw pictures.

<td>Activities</td>
<td>Speed Dating</td>
<td>Students are paired off. Students are given about 3 minutes with each partner to ask questions in the target language to get to know their partner (emphasis on likes and dislikes). Students write brief sentences based on the answers from their partner. Students look for and write about students with similar personalities and likes and dislikes to their own. After three minutes, students switch partners and start again.</td>

Unit of Study Terminology

**Appendices:** All Appendices and supporting material can be found in this course’s shell course in the District’s Learning Management System.

**Assessment Leveling Guide:** A tool to use when writing assessments in order to maintain the appropriate level of rigor that matches the standard.

**Big Ideas/Enduring Understandings:** Foundational understandings teachers want students to be able to discover and state in their own words by the end of the unit of study. These are answers to the essential questions.

**Engaging Experience:** Each topic is broken into a list of engaging experiences for students. These experiences are aligned to priority and supporting standards, thus stating what students should be able to do. An example of an engaging experience is provided in the description, but a teacher has the autonomy to substitute one of their own that aligns to the level of rigor stated in the standards.

**Engaging Scenario:** This is a culminating activity in which students are given a role, situation, challenge, audience, and a product or performance is specified. Each unit contains an example of an engaging scenario, but a teacher has the ability to substitute with the same intent in mind.

**Essential Questions:** Engaging, open-ended questions that teachers can use to engage students in the learning.

**Priority Standards:** What every student should know and be able to do. These were chosen because of their necessity for success in the next course, the state assessment, and life.

**Supporting Standards:** Additional standards that support the learning within the unit.

**Topic:** These are the main teaching points for the unit. Units can have anywhere from one topic to many, depending on the depth of the unit.

**Unit of Study:** Series of learning experiences/related assessments based on designated priority standards and related supporting standards.

**Unit Vocabulary:** Words students will encounter within the unit that are essential to understanding. Academic Cross-Curricular words (also called Tier 2 words) are those that can be found in multiple content areas, not just this one. Content/Domain Specific vocabulary words are those found specifically within the content.

**Symbols:**
- This symbol depicts an experience that can be used to assess a student’s 21st Century Skills using the rubric provided by the district.
- This symbol depicts an experience that integrates professional skills, the development of professional communication, and/or the use of professional mentorships in authentic classroom learning activities.
