Middle School PLTW: GTT Medical Detectives and Science of Technology Curriculum

Course Description Medical Detectives (MD): In the Medical Detectives (MD) unit, students play the role of real-life medical detectives as they collect and analyze medical data to diagnose disease. They solve medical mysteries through hands-on projects and labs, measure and interpret vital signs, dissect a brain, investigate disease outbreaks, and explore how a breakdown or disruption within the human body can lead to dysfunction. © 2018 Project Lead The Way

Course Description Science of Technology (ST): In the Science of Technology (ST) unit, students explore how science impacts the technology of yesterday, today, and the future. Students apply the concepts of physics, chemistry, and nanotechnology to STEM activities and projects, including making ice cream, cleaning up an oil spill, and discovering the properties of nanomaterials. © 2014 Project Lead The Way
