Multiple students

When you select a tab or tool in Campus Parent, it will default to show one student's information. The student's name and picture displays on the top right. To switch to view another student's information, simply click the picture/name and select from the dropdown.

Once you've chosen a student, Campus Parent will default to show that student's information until you choose another.

How do I...

Check my student's grades?

If you have multiple students, you will have to select a student at the top right to view their information.

Update my contact information?

Updates can be made under the **More** tab. Please note that you will not be able to make changes to information during the Online Verification & Residency window (typically April-July) as any updates should be included in the verification application. Changes must be reviewed and approved by school office staff before they will appear in Campus Parent.

To update the primary household number, select **Address Information**. You will see the current primary phone number and address for all members of your household. Click Update to request a change to the phone number. Addresses cannot be changed on the portal.

To update family contact information, select **Family Information**. Click Update under any name to request an update that individual's phone number or email address.

To update emergency contact information, select **Demographics** and select a student in the top right (if you have multiple). You can update, add, or remove emergency contacts.

You will see all classes on the student schedule for the term. The high school year is divided into two semester terms (S1, S2), and middle school is divided into 4 quarter terms (Q1, Q2, Q3, Q4). You can toggle between terms using the arrows at the top.

Assignments are divided into teacher-defined categories in this view, and you can see the total grade earned in each category. **Click the plus icon to view the individual assignments and scores.**

Weights

Teachers may separate their assignments into categories, and give those categories different weights.

If a category is weighted higher than another, the assignment scores in the higher category will count for more in the over-all grades calculation.

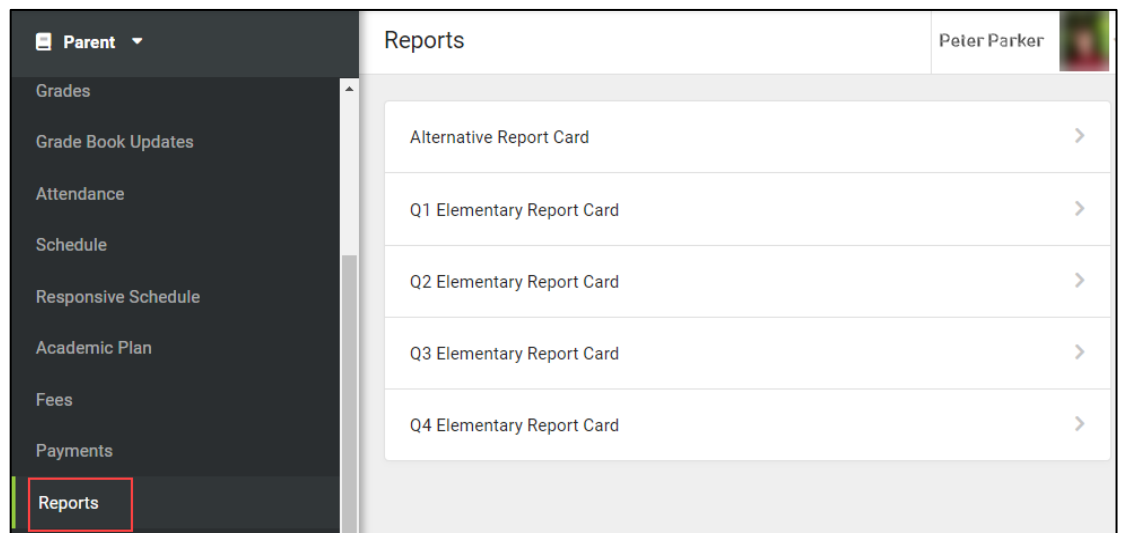

HS Algebra II A	
(S1) Semester Grade	B (85.98%)
Exams Weight: 55	423/510 (82.94%) +

Once you make a selection, the report card will generate as a .pdf document. It may pop up in your browser or download to your device, depending on your browser settings.

You can save this document to your device or print it directly.

Attendance

Attendance in the portal is updated in real time based on the teachers' attendance taking. However, attendance is not considered finalized until it has been processed by the attendance secretary. This means if a student arrives tardy after the teacher has marked them as absent, the portal may display them as absent until the attendance secretary processes their attendance at the end of the day.

Select the **Attendance** tab to a total count of all absences and tardies for the student in the term. You can view past terms using the arrows at the top. Click the gray arrow on a class to see details about the listed attendance events.

The screenshot shows the 'Attendance' tab for student Jake Peralta. At the top, there is a 'Change term' button with left and right arrows. Below this is a table of courses with columns for 'COURSE', 'ABSENT', and 'TARDY'. A red box highlights the right arrow in the 'Change term' area, and another red box highlights the right arrow in the 'TARDY' column for 'AP Psychology', with a 'More details' label. To the right, a detailed view for 'AP Psychology' shows a table with 'ABSENT' and 'TARDY' counts for 'Excused', 'Unexcused', 'Exempt', and 'Unknown' categories. Below this, 'Absences' are listed for 'Wednesday 05/22/2019' and 'Friday 01/18/2019', each with a 'CheckOut' event and an 'EXCUSED' status.
