

Building Successful Futures • Each Student • Every Day

7th Grade English Language Arts--Reading Curriculum

Course Description: 7th Grade English Language Arts--Reading is a course that focuses on creating thoughtful readers. This course emphasizes student reading comprehension across literature and informational text while utilizing a variety of strategies, including text analysis, research, compare/contrast, and story analysis. The ultimate goal is to produce life-long readers who can be successful in future endeavors.

Course Philosophy: In the reading classroom, we value **choice** because reading is personal and creates a social and collaborative community. We value **progress over perfection** because reading is hard, but together, we can do hard things. We value **critical thinking** because reading is the foundation to create a better world and a better you. #ReadingIsLife

Course Format: The day to day operation of the classroom should follow a workshop model. This model consists of 5 parts: Read, Write, Study, Do, Share.

- Read (15 minutes) Students independently read their self-selected novel.
- Write (5 minutes) Students reflect on their reading, often with a teacher provided prompt.
- Study (20 minutes) Students receive direct instruction from the teacher.
- Do (35 minutes) Students use the instruction to create meaning.
- Share (5 minutes) Debrief and reflect on the successes of the class.

The time frames for this model are a suggestion. At the start of a unit, the "study" portion may be longer than the "do" portion. Later in the unit, the "study" portion could be shortened and the "do" portion takes the majority of class.

Curriculum Revision Tracking:

Spring 2022

- Suggested resources to support student learning within units were provided from StudySync, the new ELA & Reading resource adopted beginning SY '22-'23
- Engaging Experiences structure was redesigned to better align with the workshop model
- Scope, sequence, and content alignment across ELA and Reading were improved
- Learning targets and success criteria were developed for each DESE-identified priority standard
- All standards were realigned to match DESE priority standards

Spring 2020

• Although many components of the previous curriculum are included, this was an overall complete revision of the course.

Fall 2018

Pacing changed from "class periods" to "minutes"

Spring 2017

Unit 1:

- Overview of Unit: Explanation added as to how and why this Unit relates back to a yearly theme of "humanity."
- Topic 2 Engaging Experience 1: Detailed Description reworded to stress the need to provide reading material to guide creation of speeches.
- Topic 3 Engaging Experience 1: Detailed Description reworded to stress the need to provide reading material to guide discussion.
- Engaging Scenario: Notation to see shell course in Schoology for rubric.

Unit 2:

- Overview of Unit: Explanation added as to how and why this Unit relates back to a yearly theme of "humanity."
- Ongoing Skill Building added. Throughout this unit students should be reading fiction and nonfiction pieces that support the theme of survival.
- Topic 2: Notation added that students could utilize information from survival themed fiction readings in their research, as well.
- Engaging Scenario: Notation to see shell course in Schoology for rubric.

Unit 3:

- Overview of Unit: Explanation added as to how and why this Unit relates back to a yearly theme of "humanity."

Spring 2016

Unit 1:

- Topics were rearranged
- Topic 2—Articles about communication in different careers were included in the Experience.
- Engaging Scenario was changed by removing an experience from Topic 3 and making it the Engaging Scenario.

Unit 2:

• Pacing for this unit extended to 4-5 weeks.

Unit 3:

- Compare and contrast (Dr. Seuss goes to War) moved to final Topic.
- Topic 1: POV and Char—reordered the Engaging Experiences
- Topic 2: Engaging Experience added
- Engaging Scenario: rewritten to combine 2 questions into one

Unit 4:

- Topics were rearranged: 1.) Drama, 2.) Nonfiction, 3.) Poetry
- Drama: Engaging Experience was added
- Nonfiction: Engaging Experience #2 was removed
- Pacing extended to 6-7 weeks

Unit 5:

- Overall pacing was extended
- Topic 1 time frame was extended

Unit 1: The Reader's Workshop

Subject: Reading

Grade:7th

Name of Unit: The Reader's Workshop

Length of Unit: 8 blocks

Overview of Unit: In this unit students will organize their notebooks/binder. Students will also learn effective ways to communicate clearly in an individual presentation, small group discussion, and large group discussion. The purpose of this unit is to establish routines and habits students will use throughout the year.

Priority Standards for unit:

none

Supporting Standards for unit:

- 7.RL.3.D Synthesize Ideas from Multiple Texts (Approaching Texts as a Researcher) Read and comprehend literature, including stories, dramas and poems, independently and proficiently.
- 7.RI.3.C Synthesize Ideas from Multiple Texts (Approaching Texts as a Researcher) Explain how the text reflects historical and/or cultural contexts.
- 7.RI.3.D Synthesize Ideas from Multiple Texts (Approaching Texts as a Researcher) Read and comprehend informational text independently and proficiently.
- 7.SL.1.A Collaborating Follow rules for collegial discussions and decision-making, track progress toward specific goals and deadlines, and define individual roles as needed.
- 7.SL.2.B Presenting Position body to face the audience when speaking and makes eye contact with listeners at various intervals using effective gestures to communicate a clear viewpoint.
- 7.SL.2.C Presenting Plan and deliver appropriate presentations based on the task, audience and purpose including multimedia components in presentations to clarify claims and findings and emphasize significant points.

Essential Questions:

- 1. How can I establish norms to grow as a reader?
- 2. How can I make sure my ideas are communicated clearly?

Enduring Understanding/Big Ideas:

- 1. I can read with purpose.
- 2. I can grow in reading through using established norms in reader's workshop.
- 3. I can successfully communicate with others.

Engaging Scenario

An Engaging Scenario is a culminating activity tied to the unit's priority standards, that includes the following components: situation, challenge, specific roles, audience, product or performance.

Engaging Scenario #1 (2 blocks)

Student Presentation Using Multimedia

- Students will create six memes explaining who they are. The first five memes are how different people in their lives see them: teacher, parents, siblings, etc. The last meme would be "The Real Me."
- Students can organize their 6-part meme into one slide with six sections or as six separate slides.
- They should include six pictures or GIFs, each with a corresponding caption that is succinct. For example, "How my teacher sees me" or "How my coach sees me."
- Use pictures/GIFs as a gateway to teach students how to create meaning and tone.
- There should not be any additional words on the slide. This is to encourage practiced spoken elaboration. (They should not just be reading words on a slide.)
- Once created, students will present this to the class explaining why they chose each picture and how they are seen.

RESOURCE MODIFICATION: Consider reducing the number of memes/slides the student must create.

Engaging Scenario #2 (2 blocks)

Students will annotate a variety of thematically related texts in order to gather information to support a Socratic Seminar discussion. These texts should be diverse in content and genre, and they should connect in different ways to a shared focus (i.e. "communication", "humanity," "survival," etc.). Students should be given guiding or essential discussion questions to initiate the discussion with the expectation that students come prepared with additional self-generated higher-order and lower-order text-based questions.

Engaging Scenario #2 is an intentional space for Reading & Writing collaboration and overlap.

			Plan, create and present your analogy.	Reflect on your experience.

Instructional Notes:

Students will create and share a presentation to a small group of 4-6 students. Students should find a picture that completes the analogy of "Reading is like ____." Students will show the picture to their small group and share why it represents reading to them. The visual should be a picture only so that students can practice elaborating without reading words on a screen.

Students listening to the presentations should evaluate the presenter on their physical presentation skills (body language, eye contact), and vocal presentation skills (volume, pace, enunciation).

Instructional Notes:

Students will participate in two fishbowl discussions.

- Students will all read the same fiction text.
- Students will be placed in two groups, each reading a different related nonfiction text.
- Students should first read and annotate the two assigned pieces to prepare their own thoughts. (Use this opportunity to set up annotation expectations for the year.)
- Once read and annotated, students will either be an observer or a participant in the discussion. The observer should take notes on their partner's strengths and weaknesses as a participant. Each group should focus on a different guiding question. Possible questions:
 - Why is it important to communicate effectively?
 - How will effective communication impact me in the future?
 - Why is it important to focus on how others perceive your communication rather than how you perceive your communication?
 - What barriers hold people back from communicating with one another? How can people overcome these barriers?
 - What are other challenges of human interaction?
 - How do people's backgrounds and personal experiences impact their communication styles or their ability to communicate?

Unit 2: Elements of Literature

Subject: Reading

Grade:7th

Name of Unit: Elements of Literature

Length of Unit: 21-24 blocks

Overview of Unit: Throughout this unit students will read a variety of stories to help them better grasp how a knowledge of literary elements can deepen their understanding of what they read. Students will read entertaining and thought-provoking survival themed short stories and novels, including the anchor text "To Build a Fire." Engaging Experiences throughout the units are designed to help students further their knowledge of characterization, setting and mood, point of view and perspective, and theme.

Priority Standards for unit:

- 7.RL.1.A Comprehend and Interpret Texts (Approaching Texts as a Reader) Draw conclusions, infer and analyze by citing several pieces of textual evidence to support analysis of what the text says explicitly as well as inferences drawn from the text.
- 7.RL.1.D Comprehend and Interpret Texts (Approaching Texts as a Reader) Using appropriate text, determine the theme(s) of a text and explain the relationship between the theme(s) and supporting evidence; summarize the text distinct from personal opinions.
- 7.RL.2.B Analyze Craft and Structure (Approaching Texts as a Writer) Analyze how an author develops and contrasts the points of view of different characters or narrators in a text.
- 7.RL.2.D Analyze Craft and Structure (Approaching Texts as a Writer) Analyze how the setting, characters, and plot of a text affect each other and contribute to meaning.

Supporting Standards for unit:

- 7.RL.1.C Comprehend and Interpret Texts (Approaching Texts as a Reader) Interpret visual elements of a text and draw conclusions from them (when applicable).
- 7.RL.3.B Synthesize Ideas from Multiple Texts (Approaching Texts as a Researcher)
 Compare and contrast a fictional portrayal of a time, place, or character with realistic accounts of the same subject matter.
- 7.RL.3.C Synthesize Ideas from Multiple Texts (Approaching Texts as a Researcher) Explain how characters and settings reflect historical and/or cultural contexts.

Read chosen novel		Annotations or journal	Book Club discussion	Reflect on the experience

Instructional Notes:

Determine what titles will be used that connect to the theme of SURVIVAL. Possible titles include, but are limited to:

- *Peak* by Roland Smith,
- Hatchet by Gary Paulsen,
- Endangered by Eliot Schrefer,
- Alone by Megan E. Freeman,
- A Night Divided by Jennifer A. Nielsen
- The Honest Truth by Dan Gemeinhart
- *Code Orange* by Caroline B. Cooney
- Life as We Knew It by Susan Beth Pfeffer
- Ninth Ward by Jewell Parker Rhodes

Students will read and annotate/journal about a section of the text to prepare for their book club discussions. These annotations should align, but not be limited to the literary elements addressed throughout this unit. Other techniques to address: flashback, foreshadowing.

Book Clubs should meet a minimum of four times and focus discussions around these essential questions:

- Discussion #1: How can you connect with and learn from the characters in your novel? How is the setting being used to create the conflict of your novel?
- Discussion #2: How does the point of view limit the reader's knowledge of events? How have the characters changed so far in the story?
- Discussion #3: What theme is emerging from your story and how can it be applied to real life? How is setting, point of view, and character development supporting this theme?
- Discussion 4: What is the most important word that represents your story? What did you see as the big turning point in the story (climax)? What character decisions led to the resolution of the story?

Watch Scooby-Doo clips		Identify traits, setting, and mood		

Instructional Notes:

Have students watch the following clip of <u>Scooby-Doo chase scene</u>. (Other similar clips or episodes would work as well.) While watching, using a structured note sheet, have students identify character traits and setting elements.

Analyze the setting of each chase scene. What is the time of day? Where are they located? Students should realize that the setting is almost always dark and in a location that is abandoned or isolated. How do these settings contribute to the "scary" setting? How would the story change if the setting was bright/sunny and/or populated? How would the characters' actions and reactions change with this change of setting? How would the plot of the story be impacted negatively and positively?

Tie back to anchor text: Have students identify setting details in "To Build a Fire" that created suspense for the reader and contributed to the mood.

Watch "Battle of Kruger"		Review point of view using guided notes	Retell the events of the video from various points of view	

Instructional Notes:

After reviewing the different types of point of view and how it influences perspective, students will analyze possible points of view for a video.

First, students are to watch "Battle at Kruger" They should pay close attention to the events taking place and the characters involved. After the video, review the most important events and key characters.

Assign students to different points of view (first person, third person objective, third person limited, third person omniscient). Students should discuss how their assigned point of view influences the reader's understanding of a character's perspective.

Possible discussion questions:

- What does this character's point of view bring to the story?
- What does this character's point of view leave out of the story?
- Students are to determine which character would be best to narrate the story, including the option of none of them.
- Explain why their decision is the best using evidence from the text (video) and knowledge of narrator point of view.

Tie back to anchor text: Have students discuss how the plot would change with a shift in perspective by making it first person point of view of the man or dog.

Instructional Notes:

First, students will be given a written version of the theme song for Gilligan's Island and Baywatch. They should read and annotate each, focusing on how they tie to the topic of survival. Students expand on the topic of survival by explaining what the author is trying to convey about it.

- Students should finish this stem sentence: The theme of this song is _____. I know this because ____, ____, and ____.
- The support given should be pieces of textual evidence stated explicitly and/or inferences drawn from the text.

Students can then find their own theme songs to shows, identifying the topic and full theme, and explaining how it is developed.

 Yertle the Turtle The Butter Battle Book 			Exit card	Reflect on the experience with a partner or group

Instructional Notes:

First students would need background knowledge on both World War II and the Cold War. This can be achieved by watching a brief video on each war and taking notes to reference when analyzing the stories.

Students will read two Dr. Seuss stories (The Butter Battle Book and Yertle the Turtle) and annotate each of them.

Students will rotate to different stations that lead them through analysis of each story to draw conclusions of how they relate to historical events.

Students will complete an exit card where they create a claim about the relationship between a Dr. Seuss fictional piece and a historical event. Students will need to support their claim with logical reasoning and relevant evidence.

Unit 3: Research & Informational Texts

Subject: Reading

Grade:7th

Name of Unit: Research & Informational Texts

Length of Unit: 16-18 blocks

Overview of Unit: Students will learn to analyze informational texts about survival for relevant information and evaluate the credibility of sources. After this they will use research skills to gather their own relevant information from credible sources to ultimately create a "how to survive" presentation to their peers as described in the Engaging Scenario. Each Engaging Experience in this unit leads to the completion of the Engaging Scenario.

Priority Standards for unit:

- 7.RI.1.A Comprehend and Interpret Texts (Approaching Texts as a Reader) Draw conclusions, infer and analyze by citing several pieces of textual evidence to support analysis of what the text says explicitly as well as inferences drawn from the text.
- 7.RI.1.B Comprehend and Interpret Texts (Approaching Texts as a Reader) Determine the meaning of words and phrases as they are used in the text, including figurative, connotative, and content-specific meanings using context, affixes, or reference materials.
- 7.RI.1.D Comprehend and Interpret Texts (Approaching Texts as a Reader) Explain the central/main idea(s) of a text and explain the relationship between the central idea(s) and supporting evidence; summarize the text distinct from personal opinions.
- 7.RI.2.C Analyze Craft and Structure (Approaching Texts as a Writer) Analyze how word choice contributes to meaning and tone.

Supporting Standards for unit:

Engaging Scenario

An Engaging Scenario is a culminating activity tied to the unit's priority standards, that includes the following components: situation, challenge, specific roles, audience, product or performance.

Engaging Scenario (3 blocks)

Note: All Engaging Experiences directly lead to the development and completion of this Engaging Scenario.

- Student-chosen groups (determined at the start of the unit) select a random scenario from a predetermined list. Each scenario would include a tragedy and location.
 - Sample scenario: You were in a plane crash in the Sahara Desert.
 Unfortunately, the contents of the cargo department were completely destroyed by a fire, but all items in the cockpit and cabin were scattered but survived.
 - INTERDISCIPLINARY OPPORTUNITY: Work with your Social Studies teacher to make scenarios based on different cultures/geographic regions.
- Students are to create a presentation explaining how to survive this tragedy.
 - Extension opportunity: Students could create a first person focused project where they are the one who survived the tragedy.
- Student presentations would need to include credible, reliable sources.
- Project suggestions:
 - Website
 - o Ted Talk
 - Interview Script

Instructional Notes:

Have all students read "Survivors: How do people survive in extreme situations?" Then choose one real life survival story for all students to read and annotate. (There are a few options linked in the "Research Links" portion of the Study Sync Blast.) While annotating, have students focus on the following questions:

- What dangers are present in the location?
- How does the survivor's decisions impact their outcome?
- How does the survivor's personal traits impact their chance of survival?
- Which was more of a struggle mental or physical survival?

Students should then be put into small groups to read a different real life survival story. They should focus on the same questions above. After reading, they should share what they learned with other groups.

Possible review: revisit organizational text structures within each article

Prior to this Engaging Experience, students should take guided notes on the CRAAP acronym as a tool to help with gathering credible and reliable sources and practice using it.

Note: This Engaging Experience is the start of preparing for the Engaging Scenario.

Provide students with an article that provides information about basic survival skills. Work with the students to complete the following on a structured note taking device:

- Determine if the article is credible and reliable. (CRAAP test)
- Provide citation information to determine the credibility and reliability of the source. (MLA suggested)
- Take notes from the source paraphrasing, summarizing, and quoting.

Next, provide students with another article focused on basic survival skills. Have them work in small groups to successfully take notes.

Engaging Scenario

An Engaging Scenario is a culminating activity tied to the unit's priority standards, that includes the following components: situation, challenge, specific roles, audience, product or performance.

Engaging Scenario (2 blocks)

Students will find at least one meaningful piece (a poem, song, or scene from a drama) and prepare it for performance. The focus should be to encourage students to reflect on and explain language that is highly influential, including figurative language, sensory details, sentence structure, and other techniques to create a highly engaging performance for the audience.

This is an intentional space for Reading & Writing collaboration and overlap.

Song lyrics that connect to each emotion			Rewrite a song	Groups will share their rewritten songs with the class

Instructional Notes:

Students should know how songs are usually structured lyrically, focusing on verse and chorus. (The verse tells the story; the chorus is the summary of the song's story.)

Students will travel to four different stations to examine the power of words within a song. (More stations could be added at teacher discretion.) Each station should represent a different emotion: love, hate, sadness, joy. At each station student groups should examine how the assigned emotion is portrayed within the lyrics of the song. Students should pay close attention to the specific word choice (figurative language) and repetition used. Next, for each song at the station, students should determine the most power word/phrase within the song. They should be able to explain why this word/phrase is the most powerful within the song.

Student groups should work collaboratively to rewrite one of the songs to alter its meaning, focusing on changing the figurative language used.

Subject: Reading

Grade:7th

Name of Unit: Understanding Argument

Length of Unit: 11-12 blocks

Overview of Unit: Students will first analyze the argument of multiple provided articles. They

will then focus on their own topic, finding information, and participating in a debate.

Priority Standards for unit:

• 7.RI.2.B Analyze Craft and Structure (Approaching Texts as a Writer) Analyze how an author develops his/her point of view or purpose and distinguishes it from those of others.

- 7.RI.2.D Analyze Craft and Structure (Approaching Texts as a Writer) Evaluate an author's argument, assessing whether the reasoning is sound and the evidence is relevant and sufficient to support the claims.
- 7.RI.3.B Synthesize Ideas from Multiple Texts (Approaching Texts as a Researcher) Compare and contrast how two or more authors writing about the same topic make decisions about craft and structure.
- 7.SL.1.B Collaborating Delineate a speaker's argument and claims, evaluating reasoning
 in order to pose questions that elicit elaboration and respond to others' questions and

Essential Questions:

- 1. How does the author's purpose shape what a reader knows about the subject?
- 2. Why is a claim, reasoning, and evidence necessary for a solid argument?
- 3. Why are different organizational patterns used by authors?
- 4. How does effective communication empower you to have meaningful discussions that encourage deeper understanding?

Enduring Understanding/Big Ideas:

- 1. I can analyze how an author uses perspective (point of view) to help me understand the purpose of their writing.
- 2. I can evaluate an author's argument in a text.
- 3. I can understand the purpose of different organizational structures.
- 4. I can actively participate in an on-topic discussion where my understanding of the topic is demonstrated through crafting relevant responses that move the conversation forward and asking clarifying questions when needed.

Engaging Scenarios

An Engaging Scenario is a culminating activity tied to the unit's priority standards, that includes the following components: situation, challenge, specific roles, audience, product or performance.

Engaging Scenario (4 blocks)

Option A: Traditional Debate

- First, teach the basic debate format. (Make sure this is the same format as used by the ELA Writing teacher.)
- Student pairs/groups will examine both sides of a school-related argument (e.g., dress code, passing time, assigned seats). After reviewing research expectations from Unit 3, students will collect information from nonfiction readings, interviews, and self-created student surveys.
- Student pairs/groups will then be divided into two sides and then debate the topic researched.
- Audience members determine a winner based on claims and evidence presented.

This Engaging Scenario is an intentional space for Reading & Writing collaboration and overlap.

Option B: Philosophical Chairs

- Propose a question to the class. For example: Do students need a strict dress code?
- Students physically choose a side of the room: Yes, students need a strict dress code. No, students should not have a dress code. Once there, they gather evidence to support their position. Within the group, they determined what evidence is strongest to present.
- Students present evidence to support their position.
- At any time, students can choose to switch sides based on claims and evidence presented. If a student changes sides, they need to explain what evidence persuaded them.
- The above pattern can be repeated for more questions. It is suggested to complete as many questions as needed for students to demonstrate proficiency.

Instructional Notes:

Prior to this Engaging Experience, students should review the parts of an argument.

Students will read two opposing views to the same argument. (Suggested reading "Apple vs. the FBI" and related researched links) Students will analyze each piece and focus on what the author was trying to accomplish as well as how the structure contributed to the meaning of the piece.

Students should focus on how claims drive the overall argument/message of the author and connect them to ethos, pathos, and logos. They should identify the reasoning and evidence used to support the claim and evaluate their strength of support used.

Two arguments on the same topic		Structured note taking	Philosophical chairs	

Instructional Notes:

Students will be given two arguments addressing the same topic. (Suggested source: www.procon.org; Topic of arguments should be student-related issues.) With teacher guidance, students should examine how each argument is structured.

With the use of a structured note-taking device, students should examine how each author emphasizes different evidence or how they interpret the same facts differently. Students should then determine if the reasons provided are relevant. (This engaging experience should be repeated with different articles, as needed for student understanding.)

After reading and completing the note-taking device, students will share their personal opinions on the topic in a philosophical chairs format. They should use what they learned from their reading to support their opinions.

Unit 6: Empowered Readers

Subject: Reading

Grade:7th

Name of Unit: Empowered Readers

Length of Unit: 7-8 blocks

Overview of Unit: Students will select at least one dystopian novel to read, analyze, and produce a project related to as a culminating project - proof of all they have learned throughout the course of the year.

Priority Standards for unit:

- 7.RL.1.A Comprehend and Interpret Texts (Approaching Texts as a Reader) Draw conclusions, infer and analyze by citing several pieces of textual evidence to support analysis of what the text says explicitly as well as inferences drawn from the text.

Engaging Scenario

An Engaging Scenario is a culminating activity tied to the unit's priority standards, that includes the following components: situation, challenge, specific roles, audience, product or performance.

Engaging Scenario (Concurrent with Engaging Experiences)

Students will spend this unit creating their Student Empowerment Project. Ultimately this will become a portfolio-esque project where students craft a specific plan for taking a final lap through the reading standards that have been learned throughout the year. The focus of this project is on empowering students to pursue their personal passions and determine how fiction and nonfiction elements can be used to support an overall exploration of their chosen content. This should be well-structured time that encourages students to:

- Create a specific plan for their day times, titles, and tasks (specific to where they are
 during the creation process, what fiction and nonfiction texts they are using, where and
 how they will collect feedback, and how they are keeping track of their growth as a
 reader)
- Use available tools and resources that will allow them to draw conclusions and analyze texts read. Students can demonstrate this knowledge by
 - Specific annotation strategies
 - Graphic organizers
 - Research techniques
 - Focused reflections
 - Drafting and revising
- Share what they have created both for purposes of feedback and to showcase their understanding.

When this is complete, students will have several mini-projects or one larger project to demonstrate their growth as a reader.

This is an intentional space for Reading & Writing and overlap and possible collaboration.

Board Approved: July 28, 2022 77 | P a g e

Engaging Experiences

NOTE: Each experience in this unit is a stepping stone toward the Engaging Scenario at the end of the unit. To begin the unit, the following resources will need to be gathered:

- Dystopian Novel Book list
- This unit requires a great deal of deep discussion among students. For this reason, students are usually grouped based on a novel they would all like to read and then as they read novels past their first, they would be able to select any approved title they prefer. Many discussions happen in these homogeneous groups. It is also beneficial to add discussions where students are grouped based on all different titles in order to force students to make connections among the other types of dystopian novels being read.
- Supplemental Texts (nonfiction, short stories, and poetry)
- Experience 1 must happen first. Experience 2 is ongoing and should be revisited multiple times throughout the unit. Starting with Experience 3A, teachers may choose to complete the Experience 3 activities in any order they choose. These are designed as stations or mini-projects for students to process and discuss items in class. Teacher discretion is encouraged as students work through the novels!

One or more dystopian novels			Complete several activities to showcase the reader's growth	Share and compare with students who are reading the same or different novels

Instructional Notes:

Ideally, student groups are creating evidence that they have mastered or show growth in the following areas:

- Characterization
- Point of View and Perspective
- Setting and Mood
- Theme
- Short Story and Poetry Connections
- Nonfiction Connections

If a student(s) is struggling in creating how they will show growth and understanding, the following activities can be used:

- Analysis of Figurative Language: Students will conduct an investigation of figurative language as it is used in their novels. They will look at connotations of words and how specific language is used to influence characters in the novels. Students will also connect their investigation to how language influences them daily in the "real world".
- <u>Mood Timeline</u>: Students will select major events throughout their novel and examine the mood created by the author surrounding each event. Students will then assign a symbolic color to the event based on the identified mood and track the impact the author's words have on the reader throughout the novel. NOTE: This can be done at the middle and end of the book and the two timelines can be compared so that students can analyze if/why the overall mood shifted from the beginning to the end of the story.
- <u>Character Decision Map</u>: Students will select a character and create a map that clearly shows the path that the character takes through the novel based on the CHOICES he/she makes (not the physical journey).
- <u>Setting Analysis</u>: Students will create a graphic organizer to analyze the setting of their novel and the impact that setting has on the characters.
- Assessing the Impact of Leadership Decisions: Students will create a graphic organizer (like the one shown below) to analyze how the decisions of leaders in their dystopian novels have an impact on the story as well as the characters in the story.
- Character Symbolism: For this activity, students will use colors as symbols and produce a list of traits for a character they know best in their book. Provide the following instructions: First, choose a character you understand well from your book. Write the character's name in BOLD letters on the paper in a color that seems to make sense for this character. For example, you could write a greedy character's name in green, the color of money. Write the title of your book on your paper, also using a color relevant to the book. For example, if the book is hopeful overall, you could write the title of the book in bright yellow, a color symbolizing hope. Next, use colored markers to write traits of the character, his/her motivations, behaviors, and beliefs. Use

- colors that make sense for those traits. For example, you could list SECRETIVE as a trait and write it with a gray marker since the secrets are hidden in the shadows. Think colorfully!
- Responsibility Pie Chart: Think about the BIGGEST developments that have taken place in your book so far. Now, think about the main characters you know from the book. Draw a big circle on a blank sheet of paper. Using markers, show the parts of a pie to represent the characters' degree of responsibility to the events of the book. Label the parts of the pie with your characters' names and indicate why they share the responsibility they share.
- Nonfiction Connections: Using the <u>supplemental texts provided</u>, have students select two nonfiction articles. In pairs, students should create a graphic organizer to compare the two texts and how the authors of the texts present their information. Students should also compare the texts to their definition of a dystopia, created at the beginning of the unit. Place pairs together and have them each take a position on why their articles were similar and different and whether they met the criteria for being modernday dystopias.
- Poetry and Short Story Connection: Using the <u>supplemental texts provided</u>, have students select one poem and one short story to compare to their novel. Students should read and analyze both the poem and the short story the poem for how its structure and language helps the author to communicate meaning and the story for how the characters in the story differ from each other as well as the novel the student is reading. Ultimately, students should create a graphic organizer that demonstrates the connections they can make between the story, the poem, and the novel.
- What are the implications?: After students have read one or more novels, have them complete this <u>graphic organizer</u> related to theme, point of view, and author's purpose to determine the implications of the novel. How is the author challenging their thinking? What are they supposed to learn?
